### Q&A

- **Consolidation** – No news at this point; however, likely only position that will be affected is President. Typically, there is not much notice prior to consolidation though. Hynes feels pretty good about the way things are going. When notified Hynes will make campus aware; however, somethings are externally controlled and the only thing we can do is be consistent and act positively to enhance our vision and mission. President serves at leisure of the Chancellor so his position is the most endangered. Consolidation with Georgia Perimeter and Georgia State still work in progress.
- **Parking Stickers** - the sticker you have now is good, more information will be announced; however, no fees will be implemented for Fall.

### Meeting adjourned.
