

Scholarship in STEM cohort: Students selected for those scholarships will be pursuing careers in areas in STEM to develop leadership skills through Launchpad Leadership Academy. This cohort will work with faculty from the college of science, technology, engineering and mathematics (STEM) to explore issues related to science, mathematics, computer science, and information technology. The cohort will have chances to interact with leaders of various industries and practice leading skills in a real work setting. They also will participate in the Launchpad Leadership Academy activities for promoting the participation of underserved population in STEM related fields.
